Select Eligibility

1)~Select~players **must** be registered House League (HL) players.

2)~A Select team should be made up of registered HL players from more than one HL team within **one** association.

Due to the fact that some associations have only one team per division or interlock with neighboring associations the following rules will also exist.

3)~A Select team can be a lone registered HL team from one association provided they are the only team in the age group.

4)~A Select team can be made up of registered~HL players from more than one association if each association has only one team to draw its players from and these associations~**play each other** in their HL program.~

5)~Select players can not be carded with PWSA or ORSA, unless they have been signed as a "designated spare" – meaning that they still are registered and play on a house league team. Having competed at a PWSA Qualifier or Provincial event with a PWSA team would make the player ineligible for select provincial play.

6. All division will follow the P.W.S.A. age categories with the exception of the Midget division. The midget division will allow for 2 overage players 21 or under who will not be able to pitch or catch.

7. This tournament has been developed for house league player to order to provide them with a provincial select championship tournament. The PWSA encourages teams that are together (Rule 3 and 4) for the entire season to affiliate tier 2. This will ensure that all participating players are house league players.
